

BARBS

BARBARA GLAVNIK

While DJ BARBS musical roots were based on rock music, her current DJ style can be described as **deep/mystical tech-house**. Born in Slovenia as Barbara Glavnik, she has been an electronic music enthusiast for many years and got immersed in the scene in the most influential clubs around the world (New York, London, Berlin, Ibiza), where she got in touch with the people who create the music scene, while refining her musical taste as well as the detailed understanding of the international clubbing scene. She left her imprint in clubs such across Slovenia, Italy and Croatia, such as Kurzschluss, Cirq Venice, Terminal, Forestland etc ... Her personal style and approach to music and DJ-ing has been influenced by artists such as Solomun, Ame, Dixon, Boris Brejcha and John Digweed. While her sets include the current **cutting edge productions** in the electronic music scene, don't be surprised if you will suddenly hear a known sound from Placebo or The Doors in her set, or be occasionally taken on a journey into the currently modern afro rhythms. Traveling the world of music festivals with DJ Solomun's team and being a regular guest while meeting the artists at Ambasada Gavioli, Dynamic festival, Sonus, Virgin Records, Exit, Ibiza, London and Paris helped her feel the pulse of Europe's biggest music stages and to develop an understanding of music on a different level. A wide industry and personal network, love of music and her **heart-honesty** are leading Barbara to her artistic break-through in the music scene well beyond the regional boundaries. DJ Barbs is a person and an artist with incredible **positive energy**, which can be felt in her musical rhythms. She has a great respect for people who can develop a higher level of perception and truly feel the music. Her performance leaves an impact on the audience who always wants to return to her sets. DJ Barbs is an artist who will immerse you into fresh and innovative audio landscapes you will enjoy to your fullest.
